### Continued.....

#### **Bellair Charters**

**Seattle, WA**

*Reservation Agent*

*2013–2015*

Making reservations on a computerized reservation system and making cash-ticket sales for passengers. Rectifying disputes, complaints and issues. Making announcements for boarding, establish queuing lines, helping with crowd control in a positive, customer-friendly manner, checking-in passengers. Completing daily paperwork, and maintaining an appropriate work area.

## Skills

**Programming:** Python, Java, SQL, Git, Javascript, React, HTML, CSS, Bootstrap, Spring Boot, Flask

**Applications:** IntelliJ IDEA, MS Office, Eclipse, Sublime Text, Visual Studio Code

**Operating Systems:** Windows, macOS

## Projects

---

**Cheese MVC:** Launchcode Project. Managed Spring Boot's persistence tools to store a cheese menu in a relational MySQL database.

**Payleaf Customer Search:** Spring Boot application that allows search of current Payleaf customers by one of several fields. It also is capable of displaying lists of all of the values of a given field in the system (e.g. by email, city, or time-zone).

**Activity Counter:** Built an activity counter and a simple website that uses the React router

**Sauna Reservation System:** Built a web application that responds to user input, such as date selection, loads the data from a database and dynamically renders it. Built an API capable of serving raw data to another system or service. Implemented agile development utilizing stand-ups, user story, code reviews and version goals.
